

Local Government Transparency Code. Information effective 17 June 2026

The above Code is in place to meet the Government's desire to place more power into citizens' hands to increase democratic accountability and make it easier for local people to contribute to the local decision making process and help shape public services. Transparency is the foundation of local accountability and the key that gives people the tools and information they need to enable them to play a bigger role in society. The availability of data can also open new markets for local business, the voluntary and community sectors and social enterprises to run services or manage public assets. More information on the Transparency Code and requirements placed upon local authorities' can be found at: [Local government transparency code 2015 - GOV.UK \(www.gov.uk\)](http://www.gov.uk)

The posts below fall into the category whose remuneration in the year was at least £50,000 and therefore there is a requirement to publish the posts and associated remuneration.
