Area Disclaimer

Any areas indicated in this document are approximate. They relate to the likely areas of the building at the current state of design, using the stated option (e.g NIA) from the Code of Measuring Practice 6th Edition RICS/ISVA. Any decisions to be made on the basis of these predictions, whether to project viability, pre-letting, lease agreements or the like, should include due allowance for the changes inherent in the design development and building process.

It should be further noted that:

- There is design development yet to take place that might affect them;
- The drawings included may not allow for anomalies in relation to surveyed/drawn plans;
- The Contractor is required to work to specific tolerances during construction.

Take account of these factors before planning any financial or property development purpose or strategy.
