

## Recycling bin Collected every week

### Yes please

Paper

Card

Envelopes

Aerosol cans

Food and drinks cans

Plastic bottles

Plastic pots and tubs

Plastic trays

Food and drinks cartons

### No thanks

Glass bottles and jars

Clothing and textiles

Food waste

Garden waste

Carrier and bin bags

Greasy pizza boxes

Coffee cups

Plastic bags & food pouches

Plastic film and film lids

Nappies

### Remember

- Only put items from the yes list in your recycling bin. Other items may cause the whole lorry load to be rejected.
- Leave lids on bottles
- We're sorry we can no longer get plastic bags recycled. Don't use them to wrap your waste – recycle items loose.

## Textiles Collected every week

### Yes please

Clothes

Home textiles

Paired shoes

Bags and belts

### No thanks

Pillows and duvets

**Remember** – Please put textiles, clothes, shoes and accessories in a sealed, clearly labelled bag by the side of your bin.

## Garden waste Collected fortnightly and can be recycled at community recycling centres

### Yes please

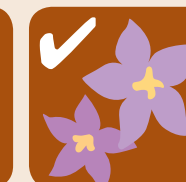

Grass cuttings

Prunings

Fallen leaves

Cut flowers

### No thanks

Soil and stones

**Subscribe** to our popular garden waste service at [epsom-ewell.gov.uk/gardenwaste](http://epsom-ewell.gov.uk/gardenwaste)

**Remember** – Garden waste can also be composted at home – order a discounted compost bin online at [recycleforsurrey.org.uk](http://recycleforsurrey.org.uk)

# Right thing Right bin

simply  
weekly  
recycling

Over the last year Epsom & Ewell residents have recycled 53% of their waste – the highest we've ever achieved and well ahead of the national average.

But over the last few months we've noticed that contamination of green recycling bins is becoming an issue.

And that costs you money.

## What is contamination?

Contamination is where the wrong things are put into a bin.

### Your green bin is for recycling:

- ✓ paper & card
- ✓ cartons
- ✓ plastics
- ✓ cans

But we have noticed that, increasingly, people are using it for other things, like glass, food and textiles, as well as general refuse.

## Why is this a problem – especially if it's recyclable like glass?

It's about how the recycling companies work. With **Simply Weekly Recycling** we carefully considered this, in order to get the best value for residents.

✗ **Glass in the green bin** smashes and damages the machines that sort your recycling. It's expensive to fix the machines. And glass shards in the rest of the recycling reduce its value. That's why we ask you to put glass separately in your recycling box

✗ **Food in the green bin** is difficult and expensive to separate. It reduces the value of the rest of your recycling, and once cleaned off has to be disposed of as refuse, which is very expensive.

✗ **Textiles in the green bin** get caught in the machines, causing damage, delays and cost.

## The right thing in the right bin

So we're appealing to everyone:

**check it out before you chuck it out!**

The right thing in the right bin helps us get more recycled, and at the best value to you.

There's a quick guide inside this leaflet. Thanks for taking the time to read it, and thank you for recycling. Without you none of our services could be the success they are.

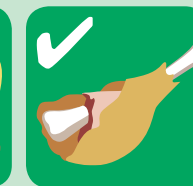

## What goes in each bin?

### Food waste bin Collected every week

Yes please

All food

Meat

Eggshells

Teabags

Peelings

No thanks

Liquids

**Remember** You can use any bag except black bags to line your caddy, including carrier bags, vegetable bags or pedal bin liners.

### Kerbside box Collected every week

Yes please

Glass bottles and jars of any colour

No thanks

✗ **Anything else**  
This box is just for glass bottles and jars
